#### SILVER.

6. Receipts.—The receipts of uncurrent silver coins during the year amounted, in nominal value, to Rs. 1,52,20,884 and showed an increase of Rs. 14,75,795 as compared with the transactions of the previous year. The remittances after examination were classified as follows:—

			In thousands of rupees.
Government rupees a	nd half-rupees	of 1835	578.6
Ditto	ditto	1840 (1st issue) .	1,396.0

Ditto	ditto	worn	4,828.2
Ditto	ditto	reduced	35.8
Ditto	ditto	of 1911	3,068.5

- 7. The above figures include the uncurrent and withdrawn coins amounting to Rs. 58,950 eliminated during the course of examination from the special remittances sent to the Mint from the Currency Offices of Calcutta, Cawnpore, Madras, Lahore and Rangoon for the annual rupee census.
- 8. Coinage.—The total silver coinage excuted by the Mint during the year under review was 25,189,004 pieces valued at Rs. 1,55,00,111 as compared with 36,196,505 pieces valued at Rs. 1,38,07,253 in the year 1910-11. The coinage, which included 43,00,000 whole rupees bearing the effigy of His Majesty the King and the year 1911, was executed entirely from the receipts of withdrawn and uncurrent silver coins.
- 9. Percentage of good coins.—The percentages obtained from weight of metal operated on compare satisfactorily with those of previous years. They are as follows:—

ret 155 mar telleboth	10%	, W	eight of Ingot	Percentages of good	
Rupees			156.47		70'2
Half-rupees .			18.34	gill **95099	70.1
Quarter-rupees			9.51		68.5
One-eighth-rupees			12.61		. 67 4
One-cignen-rapeos					

- 10. Pyx trials.—The results of the pyx trials furnished by the Assay Master in his attached report show that the weight and fineness of the silver coinage was maintained at its proper standard.
- 11. Silver operative losses.—The following balance statement shows the results of silver coinage operations for the year under review:—

Opening balance . Receipts	Rs. 24,79,299 1,50,74,315	Issues Closing balance Operative loss	Rs. 1,58,62,486 16,77,625 13,494
, Total	1,75,53,605	Total	1,75,53,605

This loss gives a rate of 86.7 per lakh of standard tolas coined.

- 12. The loss was reduced by the recovery of silver from floor sweepings of the Bullion Office which amounted to Rs. 341, thus reducing the rate of loss to 845 per lakh.
- 13. It may be further noted that the coinage being entirely confined to the recoinage of uncurrent silver coins, the loss shown above includes an estimated weight of 7,444 tolas of dirt (calculated at 65 tolas per lakh on 11,452,416 tolas uncurrent coin).

### BRONZE AND COPPER.

- 14. Receipts.—There was no purchase of copper for bronze coinage, the stock held in the Mint together with maunds 1,639 of worn copper coins withdrawn from circulation during the year being sufficient to meet coinage requirements.
- 15. Coinage.—In the year under review the Mint executed a total bronze coinage of 63,443.524 pieces valued at Rs. 9.25,625 as compared with 80,668,421 pieces valued at Rs. 9,45,124 in the year previous.
- 16. In addition to this Mint the coined 4,748,000 pieces of Ceylon copper coins valued at Rs. 39,920, the weight of metal used being met by a remittance of 5 cent pieces by the Ceylon Government.
- 17. Under Finance Department letter No. 7432-F., dated 21st December 1911, the Mint also coined 504,500 copper pieces of "Amman Cash" valued at Rs. 1,971, for the Pudukottai Durbar.
- 18. Details of these coinages are shown in statement II attached to this report.
- 19. The result of the weighment and analysis of the bronze coins sent to the Assay Master proved that the coinage was within legal standard limits with regard to weight and composition.
- 20. Operative losses.—The operative losses written off the accounts for the year under report in connection with bronze coinage are as follows:—

Melting loss mds. 26.55 at '34 per 100 mds. melted.

Coiming , , 11'72 at '16 do. of new coins coined.

21. The operative loss on the coinage for the Ceylon Government was maunds 42 30 and for the Pudukottai Durbar maund 1.

### MISCELLANEOUS.

22. The total silver coinage shown in statement II of this report bearing His Majesty's effigy on the obverse amounted to—

Rupees . . . 10,300,000 pieces.

Half-rupees . . 1,136,000 ,,

Quarter-rupees . . 760,000 ,,

One-eighth-rupees . 4,800,000 ,,

- 23. Silver Balances.—The average daily silver balance amounted to Rs. 20,38,535; on 31st May 1911 it fell to a minimum of Rs. 5,64,986 and on 9th November 1911 it rose to its maximum, vis., Rs. 47,32,952. There was a gradual rise in the silver balance owing to the cessation of coinage pending the preparation of new dies during August to October 1911.
- 24. The Medal, Die and Engraving Departments were kept extremely busy during the year; the bulk of the work was in connection with the Imperial Delhi Durbar held on 12th December 1911, work for the Army Temperance Association and other miscellaneous orders being meanwhile practically held in abeyance.
- 25. This Mint had the unique privilege of manufacturing two thrones and footstools for the use of Their Majesties at the Imperial Durbar.
- 26. These thrones, an illustration of which is appended to this report were facsimiles of two wooden thrones of Georgian design in the possession of the Government of India. They were manufactured in solid silver and gilded throughout. The total net weight of the metal in the chairs and footstools amounted to 1,911 fbs. avoir.; Rs. 96,000 of old rupees being melted down to produce the castings.
- 27. The casting, chasing and engraving work was done entirely in the Mint under the supervision of Captain G. H. Willis, M.V.O., M.I.M.E., R.E., Acting Mint Master. The upholstery was supplied by a local firm of

jewellers. The cost of manufacture, excluding the cost of upholstery which amounted to Rs. 1,750, was Rs. 3,000. The first casting was begun in July 1911 and the chairs were ready for despatch to Delhi on 25th November of that year.

- 28. The Mint was also engaged during the year in the preparation of new medals and coins; specimens of these are illustrated on the frontispiece.
- 29. The obverse punch for the new coinage bearing the image and super-scription of King George V was received from the Royal Mint, London, in July 1911, and in November and December rupees and fractional silver coins were struck and supplied to treasuries so that the first issue should be made to the public on Durbar day, the 12th December. Soon after that date complaints began to be made by various members of the public about the shape of the elephant depicted on the insignia of one of the orders on the obverse of the rupee. The dies were therefore slightly altered and in the 1912 coins the figure of the elephant is more distinct and correct in outline. The reverse design has already been alluded to in last year's report.
- 30. At the request of the Agent of the East Indian Railway 6,000 medals were struck from dies prepared and designed in the Mint for distribution among the staff employed in safeguarding the passage of the special trains of their Imperial Majesties. The medals were struck in aluminium-bronze.
- 31. Under orders of Government contained in letter No. 4177-F., dated 8th July 1911, this Mint prepared punches and matrices for a Durbar medal for distribution among the school children in India. The designs were prepared by Mr. F. K. Wezel, Engraver of the Mint, and the punches made under his immediate supervision. The medals were however struck at the Bombay Mint.
- 32. The Government of India in letter No. 5716-F., dated 15th September 1911, ordered a commemorative Durbar medal to be struck at the Calcutta Mint. A punch for the obverse of the medal was sent out by the Royal Mint for the purpose, but was found to be too small in diameter. In order to enlarge it to the required size a replica of about 3 diameters was made in soft Silver, and nickel plated to make it sufficiently hard to stand the wear of the pointer of the engraving machine. From this replica a working punch of the required size was cut. The reverse was prepared from a design furnished by the Government of India. The brooches and ribbon attachment were prepared in this Mint and 200 gold and 27,000 silver medals struck.
- 33. For those already in possession of the Home Coronation medal and also entitled to the India medal, a clasp inscribed "Delhi" was designed and manufactured at this Mint. Miniatures of the Durbar medal were also struck and up to the close of the financial year under report 1,647 medals and 254 brooches were issued.
- 34. The engraver also designed and prepared punches for a medal for the Military tournament held at Delhi on the occasion of the Imperial Durbar; 15 gold, 37 silver and 32 bronze medals were struck from these dies.
- 35. During the year 417 war and other medals and 476 clasps were replaced by the Mint on applications received from Commanding Officers of Regiments under the control of the Northern and Eastern Circles.
- 36. Under the orders of the Government of India the Mint on the 9th May 1911 transferred to the Commissioners for the Port of Calcutta, 12 bighas 7 kottas 15 chittacks and 14.5 square feet of Mint land adjacent to the river. The cost of the land and buildings situated thereon paid by the Port Commissioners amounted to Rs. 7,45,670 and Rs. 74,950 respectively.

#### PLANT AND MACHINERY.

37. The machinery ran satisfactorily during the year with the exception of the double helical gearing of the rolling mills which continued to be a source of anxiety. The dross mills were converted from steam to electric power during the year. There were no other additions or alterations of importance. The whole of the Mint machinery is now driven by electricity.

38. Supply of electric current.-The records of the Mint generating station show that 438,581 B. T. units were generated during the year, the cost being as follows :-

		Rs.
Fuel, establishment and stores		24,846
Depreciation at 5 per cent on plant and buildings, and provision for pensions	3 per cent on	15,910
	TOTAL .	Rs. 40,756
The cost per unit works out to be fuel	. establishment,	
stores		o gob annas
Depreciation		0.281 "
TOTAL COS	T PER UNIT .	1.487 annas

The amount recovered in payment for fans and lights in private quarters was Rs. 1,864.

39. The accounts for the complete electrical installation were closed during the year. The final cost which amounted to Rs. 6,69,269-5-0 was accepted by the Government of India in Finance Department letter No. 1306-A., dated 28th February 1912.

## REVENUE AND EXPENDITURE.

- 40. Revenue, charges tevied .- The Mint realized a total revenue under charges levied on silver bullion, of Rs. 654; the major portion of this was received from the Photo. and Litho. Office of the Survey of India for recovery of silver from precipitate residues.
- 41. Gain on coinage operations. The total gain credited under this head amounted to Rs. 8,891 of which Rs. 8,549 represented the gain by over standard value of uncurrent silver coins withdrawn from circulation.
- 42. Cash and Transfer Receipts. These receipts amounted to Rs. 33,560, as compared with Rs. 53,929 in the year previous; the decrease in revenue under this head is chiefly due to a decrease in revenue realized from the sale of old stores. The apparent increase under transfers is due to the work done in connection with Public Works by the Mint.
- 43. Miscellaneous Cash Receipts .- An amount of Rs. 2,480 was brought to account, of which Rs. 1,864 represented the cost of power and light consumed by Mint officials in their private quarters.
- 44. Expenditure.—Loss on coinage operations.—The total amount shown as expenditure under this account amounted to Rs. 2,61,840. Of this amount Rs. 14,657 represented the operative loss written off the accounts during the year. Rs. 2,45,180 represents the net loss on recoinage of old silver coins withdrawn from circulation as compared with Rs. 2,62,156 in the previous year.
- 45. Salaries and establishment.-Rupees 3,79,060 was expended under this head of account as compared with Rs. 3,02,539 in the year previous.
- 46. Copper and bronze used for alloy, etc.—Rupees 1,415 was expended in the year under report as compared with Rs. 1,300 in the previous year. Of the amount thus written off Rs. 209 represented value of copper used as alloy and Rs. 1,206 value of copper and other metals used for contingent purposes.
- 47. English and local stores.—The total expenditure amounted to Rs. 82,213 showing a decrease of Rs. 34,663, the decrease being chiefly due to the expenditure in English stores which amounted to Rs 24,960; the reason for the gross decrease may be chiefly attributed to the diminution in coinage for the year as compared with the year previous.

- 48 Contingent charges.—The slight increase of Rs. 1,552 under contingencies as compared with the previous year is fairly distributed among the minor heads of expenditure. An item of Rs. 209 for livery of peons appears in the year's expenditure under report, and the increased expenditure under cart and coolie hire, postage and telegrams is chiefly due to the additional work in connection with the Durbar. The expenditure under miscellaneous includes Rs. 652, railway freight paid by the Mint on consignments of old scales and weight returned by Opium Factories.
- 49. Pro forma Receipts and Charges—On the receipt side a credit of Rs 1,42,255 has been shown which includes the approximate credit at 15 per cent on the value of new bronze coins manufactured, to cover working expenses.

On the charge side Rs. 3,60,793 represents the interest on Capital account and the Bullion and store balances held in the Mint at the close of the year.

50. Capital account.—Rupees 9,267 represents the total value of machinery brought to account and transferred to the capital \*expenditure. This account has been also swelled by the expenditure incurred on Mint buildings and has been reduced by the value of the transfer of a portion of Mint land and the buildings thereon to the extent of Rs. 8,20,620.

#### COUNTERFEIT COINS.

- 51. The total number of coins examined by the Assay Master during the year was 442 as compared with 344 in the year previous; of these 170 were genuine, 7 struck counterfeits, 205 castings, 49 base castings and 11 doubtful as to their genuineness or otherwise.
- 52. Of the total number of coins examined 16 were for the Mint, the remainder were received from Magistrates, police officers, etc.
- 53. The examination of these coins resulted in 1,003 assays being made, and the finenesses ranged from 19.7 to 977.1 per mille.
- 54. Of the 16 counterfeit coins examined for the Mint the following are deserving of notice. Three were struck coins of good execution and contained silver to the extent of 938.0, 949.9 and 951.7 per mille.
- 55. Among the 442 coins received for examination, 9 were Kabuli coins on which no opinion was expressed.
- 56. Among the remittances of uncurrent silver coins received and examined by the Mint 3,125 counterfeit rupees, 82 half-rupees 279 quarter-rupees and 597 one-eighth-rupees were eliminated; showing a decrease on the amounts detected in the previous year.

- (d) No silver was received for rupee coinage from the Secretary of State during the year.
- 4 Silver Coinage.—(a) The Government coinage for the year which consisted of rupees, half, quarter and eighth rupees, amounted to 15.897,391 pieces, valued at Rs. 1,25,74,209, and was wholly on Government account.
- (b) 37,599,245 British dollars were issued to Exchange Banks for export during the year, all the coins having been shipped to Hongkong—the amount manufactured being 37,470 509, which is the highest on record since the commencement of the dollar coinage.
- (c) 96,797 ten cent pieces and 564,668 five cent pieces were manufactured for the Straits Government, the amount of coins shipped to Singapore being 40,000 twenty cents, 100,000 ten cents and 719,950 five cents.
- (d) The whole of the coinage was found by the Assay Master to be within legal remedy for weight and fineness.

Silver Branch of the Gold Standard Reserve.—One crore of rupees was withdrawn from the Gold Standard Reserve during the year, leaving a balance of one crore at the end of the year.

5. Meltings.—Uncurrent Government silver coin, as well as new subsidiary coins from the Straits Government, were taken into direct alligation. Bar silver tendered for dollar coinage was also similarly treated from 1st September 1911, Government sanction for which was accorded—vide Finance Department letter No. 6132-F., dated 7th October 1911.

This treatment of the bar silver tendered for dollar coinage proved very satisfactory as the Banks were enabled to receive payment in dollars for the silver bars tendered by them in less time than had been the case previously, and at the same time economies were effected in the Melting Department of the Mint.

During the year a set of experimental double moulds for dollar meltings were constructed and brought into use with good results, and it is hoped that next year their use will become general, in which case it will be possible, whilst employing the present mould carriages, to melt for dollars in pots of 21,000 tolas capacity in place of the present 15,000 tolas pots which are somewhat small. This will bring about further small economies in the Melting Department and reduce the work of the calculating staff in the Mint Office.

To lighten this work which, at times is very heavy, the sanction of the Government of India has been obtained to evolve and print sets of alligation tables for use in the office.

6. Percentages of Good Coin.—The percentages of good coin calculated on the amounts laminated were as detailed below:—

	Description	of coins.			Weight of ingots laminated.	Percentage of good coin.
-544-1				3	Tolas.	
Government	rupees	***			16,857,353	69'34

Ten cents	1				55,269	41'45
Five cents		2.76			130,941	45.81

7. Silver Operative Losses—The silver operative losses for the year 1911-1912, as detailed below, amounted to Rs. 87,499-15-2, all silver being valued at the uniform rate of rupee one per standard tola.

Opening balance Receipts	ceipts 9,78,89,364 11 o Closing	Issues 9,80,67,98	3 14	3				
		10,18,76,910	6	7	10,18,76,91	о б	7	

This gives a rate of loss of Rs. 88'20 per lakh of tolas coined.

The above has been calculated as far as practicable on the principles laid down under the revised system of accounting for operative losses and gains sanctioned by Government, vide Comptroller General's letter No. B.R.C.-422-134-11, dated the 28th March 1912. Next year the operative losses for Government, Dollar and Colonial coinages will be shown separately.

#### NICKEL.

8. The number of nickel one anna pieces coined during the year was 41,760,000 of the value of Rs. 26,10,000, being more by Rs. 97,500 than that of the previous year. This value includes an initial coinage of the new design (George V) of the value of Rs. 1,47,500 which was subsequently rejected and remelted on the orders of the Government of India as the design was finally not approved.

During the year some improvements were effected in the manufacture of the nickel pieces with the waved edge. Partly on account of these improvements but mainly owing to the care and attention bestowed in the Nickel Cutting Department by the Engineer Superintendent, Mr. Baker, the nickel coins issued were of a better finish and more uniform in shape than in former years.

Experiments were also commenced in the Mint on the blanching of nickel blanks to still further improve the colour of the coin on issue to the public, and when the machines now employed are in proper working order it is hoped that these experiments will prove successful.

Attempts are being made to adapt the 17 screw presses, only used at present for silver coinages, for nickel annas, and it is expected that these attempts under the direction of Mr. Race will also be brought to a successful conclusion early next year, in which case, provided no large silver coinage is in progress, the capacity of the Coining Department of this Mint to coin nickel pieces will be about doubled.

The total operative losses written off the books during the year amounted to 29 maunds, giving a percentage of '406 per 100 maunds of metal rolled.

#### BRONZE.

9. No bronze coinage was carried out during the year.

#### MISCELLANEOUS.

- 10. Miscellaneous work. (a) This consisted of the recurring supply of dies, medals, etc., to various public institutions, the manufacture and adjustment of scales and weights and miscellaneous supplies and repairs undertaken for Government Departments and the public, the profit made being Rs. 547.
- (b) There were 157 war medals, 185 clasps and 1 star issued during the year.
- (c) During the year the Mint was called upon to strike medallions which the Government of India had decided should be distributed to school children on the occasion of the visit to India of Their Imperial Majesties the King-Emperor and Queen-Empress. The medallions were of cupro-nickel, each 1.25 inch in diameter and bore on the obverse the effigies of Their Majesties, with names, and on the reverse the date with a crown and conventional scrolls, etc. A short length of ribbon of garter blue fastened by a pin was attached by two small rings on the rim of each medal.

The obverse and reverse of the medallion were designed by Mr. F. K. Wezel of the Calcutta Mint, the design on the obverse having been adopted with modifications from that of the English Coronation medal.

The number of fitted medals despatched from the Mint to the various states and provincial distributing centres and private educational institutions was 2,259.952.

- Emperors and other designs, which were undecipherable, were forwarded to the Mint by the Bombay branch, of the Royal Asiatic Society, for disposal to numismatists. The amount realised by the sales of Treasure Trove coins during the year was Rs. 196, the metal value at which the coins were credited in the Mint accounts being Rs. 103. After defraying postage and other charges, the profit on the sale of these coins amounted to Rs. 92.
- 12. Mint Working Standards.—The weights in all the Departments were periodically compared with the standards and any difference found carefully adjusted.

### ANALYSIS OF REVENUE AND EXPENDITURE.

#### 13. Revenue -

- (a) Charges levied. Mint Seigniorage.—The seigniorage on silver tendered for British dollar coinage and for which outturn certificates were issued during the year, amounted to Rs. 17,59,307, the premelting fees at Rs. 48½ per lakh on silver taken in direct alligation (vide paragraph 5 above) amounted to Rs. 30,154, and the seigniorage recovered from the Straits Government for subsidiary coinage to Rs. 3,197.
- (b) Gain on coinage operations.—The gain on this head was Rs. 62,242, being more than that of the preceding year by Rs. 36,745.
- (c) Cash and transfer receipts.—These receipts amounted to Rs. 2,73,819 and were more by Rs. 2,60579 as compared with the year 1910-1911 and were chiefly due to the large issue of school children's medallions.

- (d) Pro forma receipts .- A pro forma credit at 5 per cent on the value of nickel coins turned out during the year amounted to Rs. 1,30,500 being more by Rs. 4,875 than that of the previous year.
  - 14. Expenditure .-
- (a) Loss on coinage. Silver. The difference between the par and weight values of uncurrent coin received from Government Treasuries for re-coinage amounted to Rs. 1,62,225 as against Rs. 1,59,765 in the preceding year.
- (b) Salaries and Establishment.—The total expenditure on salaries and 1011-12 1910-11. Fixed establishment ... Extra establishment and over 2,20,275 2,19,370 1,70,005 05.361 time pay TOTAL 3,90,280 3,15,731

establishment for the year as compared with that of the preceding 12 months is shown in the margin. increase in extra establishment and overtime pay is due to the heavy dollar coinage and school children's medallion work.

- (c) Copper used for alloy and for contingent purposes.—The amount expended under this head was Rs. 92,616 as against Rs. 18,339 for 1910-IQII.
- (d) Local and English stores.—The expenditure under these heads amounted to Rs. 2,27,921 as compared with Rs. 94,704 in the preceding year, the increase being due to reasons stated in para. 14 (b) above.
- (e) Contingent Charges .- These charges amounted to Rs. 40,012 and showed an increase of Rs. 15,260 on last year's figures.
- (f) Transfer Charges.—These amounted to Rs. 15,627 as against Rs. 932 in the preceding 12 months.
- 15. Resumé of Revenue and Expenditure.—The result of the transactions of the year, as summarised in Statement No. I, shows that, including interest on capital outlay, the net profit from Mint Operations during the year was Rs. 8,68,600.
- 16. Balances sunk in the Mint. The balances of silver bullion belonging to Government, valued at rupee one per tola of standard fineness, stood at the beginning of the year at Rs. 18,65,376 and at its close at Rs. 7,00,200. The average daily balance, exclusive of silver belonging to tenderers, was Rs. 34,30,490. - 2,198 counterfeit coins (1,923 rupees, 81 half-rupees, 48 quarters and 146 one-eighths) were received for examination during the year as against 1,643 in 1910-1911, and were classified as follows :-
  - (i) 1,094 coins (40 castings and 1,054 struck) received from the Bombay, Baroda and Central India and Rajputana-Malwa Railways, and 44 struck counterfeits received from the Bank of Bombay, Ahmedabad, in four lots were accepted as exceptionally well executed.

- (ii) 118 coins (64 castings and 54 struck) were sufficiently good to deceive the public as regards colour and finish.
- (iii) The remaining 942 (786 castings and 156 struck) were in the majority of cases inferior specimens of low touch silver or base metal and noticeably false.

(The second and third classes above include coins which were returned to the Railways, as they did not come up to the standard of excellence required by Government.)

2,003 counterfeit coins (1,344 rupees, 37 half-rupees, 206 quarters and 416 one-eighths) were discovered in remittances of uncurrent coins to the Mint as against 2,618 in the previous year.
